

Ghanshyam Singh

+91 9451907749 | shyaam403@gmail.com | Noida | [Linkedin](#)

Profile

MCA graduate with hands-on experience in Java, MERN stack, Python, SQL, and AI-integrated web development. Skilled in building full-stack applications, REST APIs, database workflows, and scalable backend systems. Passionate about software engineering, problem-solving, and modern AI-driven application development.

Education

Master Of Computer Application

Dr. Virendra Swaroop Institute of Computer Studies 2024-2026

Bachelor of Computer Applications

United University 2021-2024

Intermediate

Kendriya Vidyalaya New Cantt 2020-2021

High School

Kendriya Vidyalaya New Cantt 2018-2019

Projects

Video Assistant with RAG | Python, Streamlit, OpenAI Whisper

- Built an AI-powered video assistant using Retrieval-Augmented Generation (RAG) to answer questions from transcripts and indexed knowledge.
- Implemented transcript processing, text chunking, embedding generation, and semantic vector search for context-aware retrieval.
- Developed conversational workflows for summarization, question answering, and knowledge retrieval.

AI Code Reviewer | MERN, Gemini API, AI Integration

- Built an AI-driven code review tool that analyzes source code and generates automated improvement suggestions.
- Integrated LLM-based feedback to detect syntax mistakes, recommend optimizations, and explain coding issues.
- Developed a real-time review workflow with React, Node.js, and REST APIs for seamless code submission and analysis.

AI Creators Platform | React.js, AI Content Generation

- Built a full-stack AI content creation platform combining AI-generated drafts with a manual rich-text editor.
- Implemented workflows for creating, editing, and managing long-form content efficiently.
- Designed reusable UI components and CMS-style authoring experiences using React.
- Integrated AI-assisted writing flows to accelerate content creation while maintaining manual control.

Skills

Languages: Java, Python, Javascript, SQL, HTML5, CSS

Framework and Libraries: React.js, Node.js, TailwindCSS, Express.js

Tools: VScode, Git & Github, Docker

Databases: MySQL, MongoDB

Core Concepts: OOPS, REST API, SDLC, Computer Network
